

Student Position Announcement:

Summer STEM Ambassador

Description:

A Summer STEM Ambassador (SSA) will serve as a student representative for the Summer STEM at UMBC initiative. Through personal interactions and social media, the SSA will help promote key components of the initiative, specifically – registration, study groups and on-campus student resources.

Ideally, the SSA will be a current UMBC rising junior or senior majoring in a STEM discipline, or a student who has previously taken core STEM courses at UMBC.

The SSA will have a solid academic foundation with a cumulative 3.2 GPA or better.

The SSA will communicate effectively during small-group presentations and one-on-one interactions.

The SSA will recognize the value of peer supported learning and have experience participating in or leading study groups with fellow students.

The SSA will be viewed as a role model and campus leader - someone with whom other students would want to interact.

Duties and Responsibilities:

- Promote the Summer STEM initiative on campus during the spring semester (up to 15 hours total) and the summer sessions (May 27 – Aug. 15; 6 - 8 hours a week, the schedule is flexible)
- Assist in leading study group workshops at the beginning of each summer session
- Report weekly to supervisor during summer session activities
- Other duties as assigned

Application Process:

Interested students are asked to send the following items in a single .pdf file to mcmillen@umbc.edu with the following subject line: Summer STEM Ambassador Application.

- **Resume**
- **Statement of Intent** (150 word limit) explaining one's interest in this position.
- **The names of two references**, one of whom is a UMBC faculty member. Please include the individual's title, contact information and a brief description of the association.

Application due: ~~March 26, 2014~~

Extended Deadline April 1, 2014
